

3.7 Grade Replacement

A Student may choose to replace an existing grade by taking a current existing course available through Vanguard's current year course offerings. The new course must meet the same graduation requirement as the original course. Once the course is completed, the lower of the two grade(s) will be deleted and higher grade(s) will remain in the term the course was completed. A student must complete an ACAP enrollment form and be pre-approved prior to beginning any coursework in order to replace an existing grade.

Board Approved 12/2022
