

1.3 COURSE ENROLLMENT

Board Approved 10/2022

Vanguard's academic advising team will meet with every parent and student to put together an Individualized Graduation Plan Summary. This process will establish the course requests for the upcoming year. The schedule will be built from those student course requests, and every effort will be made to make sure each student receives the relevant education they desire. Parents will review and approve all graduation plan summaries and schedules.
